15:15 – 15:30	Post meeting networking and close

All sessions will allow for questions

National FCERM Stakeholder Forum Aims and Objectives

The Forum is a network of national organisations from the statutory, voluntary and commercial sectors, all of whom have a responsibility for or an interest in the management of flood and coastal erosion risk. The Forum is coordinated by Defra and the Environment Agency.

The role of the Forum is to provide a network and arena for exchanging information, sharing good practice, raising and discussing issues, informal consultation, reviewing successes and lessons learnt, and to contribute to the effective future development of flood and coastal erosion risk management.

The Forum should help develop effective working relationships across the network of organisations that take part. We should understand the issues, each others views and perspectives, and work together to develop effective policies and practices which will help reduce flood and coastal erosion risk and its consequences. The Forum is for all and member contributions are always welcome.

Members of the National FCERM Stakeholder Forum

The following list identifies those groups and organisations who are invited to attend the Stakeholder Forum:

- Action with Communities in Rural England
- ADEPT
- Age UK
- Agriculture Land Tribunals
